

Production Technician, Newmarket CB8, c£32K

An innovative manufacturing company based in Newmarket, is seeking a multi-skilled Production Technician to strengthen their Production function in support of the organisations planned and sustained expansion.

You will provide the extra capability to develop and continually improve the manufacturing engineering techniques and controls. Working closely with the Production Manager and other specialists, you will ensure all data necessary for efficient production is available at the point of use and that Production Operators are trained accordingly.

You will possess a mechanical engineering and manufacturing background, Degree/HNC/Apprentice trained or similar calibre, where “hands on” production training will be provided to ensure your success in the role.

This role would suit a person who is non-abrasive, pragmatic, brave and determined and who is able to motivate others, well organised and embraces change.

Key attributes required:

- Practical application of document management systems (knowledge of Q-Pulse an advantage)
- Working in a quality assured environment (ISO 9001 /TS16949 or similar)
- Medium – high volume engineered parts and assemblies
- Manufacturing engineering and procedure development
- Creating, proving and implementing good manufacturing practices
- Controlling production assets and tooling
- Provision of training and maintaining training schedules and records
- Problem solving

General requirements:

- Good understanding of health and safety at work
- Excellent written and verbal communication skills
- Good presentation skills
- Skilled in MS Office
- Ability to plan and achieve tasks
- Meticulous attention to detail
- Ability to work as part of a team but also on own initiative

This is a fantastic opportunity where you will be part of the Production function, updating and improving Production data, providing support and training to skilled operators whilst working within a passionate and fun cutting-edge organisation that continually strives to maintain the respect and trust of their Customers.
