

Supply Chain Lead, Hertfordshire SG12, £45K - £55K

An innovative manufacturer, developing bespoke products globally across various Industry sectors including aerospace, marine and transportation, is looking for a Supply Chain Lead in addition to the business and team where you will have the opportunity to make the role your own. You will manage three people and possess excellent interpersonal skills and tenacity where you will be working with all operations and levels.

Exposure working within a technical manufacturing assembly operation would be an advantage with excellent planning and systems processing skills.

Reporting to the Managing Director, your object is to ensure a smooth flow of materials from receipt of the Customer order and approval of the BOM's for builds through to the delivery of the component parts to the Manufacturing Department in order for them to build the product range in time to meet the Customer delivery date.

You will be in a new MRP system (Sage 200), ensuring that Customer orders are correctly loaded, showing all BOM's needed to complete the order and that the planned material schedules are met to ensure timely delivery of material to allow Production to deliver on schedule with the Customer's PO and SS's promised date on the Order Acknowledgement.

Review overall purchasing trends and seek out opportunities for supplier rationalisation whilst ensuring a good business Continuity plan is in place as well as a good plan for back-up and second source for all critical products.

Company policies, processes and procedures must be met to ensure a good audit trail.

Activities, responsibilities, skills and accountabilities:

- Strong planning, systems and processes
- Excellent interpersonal skills with gravitas and tenacity
- Supply Chain Degree/CIPS or similar exposure/calibre
- Work harmoniously and supportive to all operations, clients and suppliers
- Support the team in continuous improvement, analysis in compliance, negotiation, leverage and value engineering
- Monitor, measure and reporting for KPI's
- Actively involved in projects adding value and ideas

This is a unique opportunity where you can make the role your own and add value working with a fun and Innovative business that continually develops new technology, pushing boundaries whilst providing bespoke solutions globally.
